

REMARKS

This patent application is a continuation of allowed U.S. Patent Application Serial No. 10/357,781, filed February 4, 2003. Applicant has reviewed the art of record in that application and submits the foregoing new claims of varying scope. The new claims are believed fully supported by the application as filed inasmuch as they merely substitute generic terms such as "paper product" for "napkin" and so forth.

The Examiner is invited to call at the number listed below as to any matter which may expedite prosecution of this application.

Respectfully submitted,

Michael W. Ferrell
